## FLVL42- Coil Auto Feed Screw Driving Systems

Get the Muro advantage, a simple one step process. No pre-drilling required with our systems. 100 fasteners per easy load coil. **Muro's patented Super Wing Screws are designed to ream a clearance hole so the threads do not engage in the wood. On contact with metal, reamer wings break off leaving the self drill point to drill the metal while the self threading screw pulls the wood tight to the metal.** These tools can handle many jobs, including: Bus, R.V., Trailer Floor fabrication and restoration, Wood to Steel framing, Mezzanine Floors, manufacturing of commercial vehicles such as Horse and Utility Trailers.
